3-CPUDR CPU Door Installation Sheet
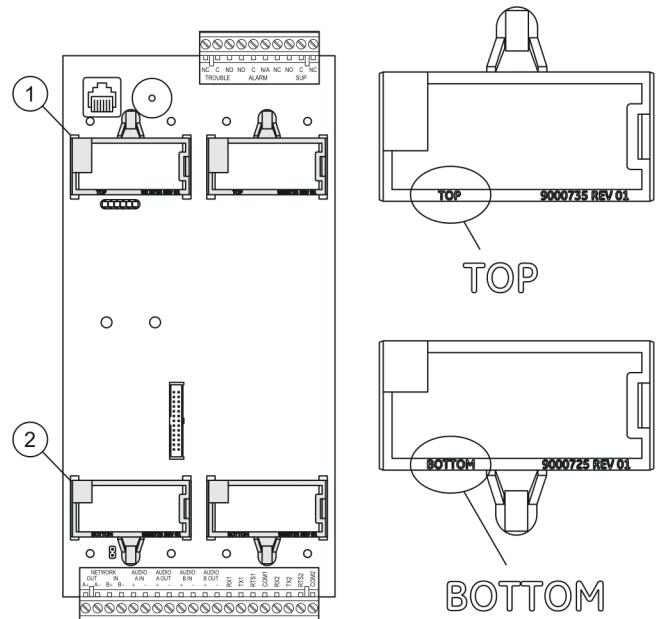

Description

The 3-CPUDR provides the cover and the mounting brackets for CPU modules that are installed without an LCD display module.
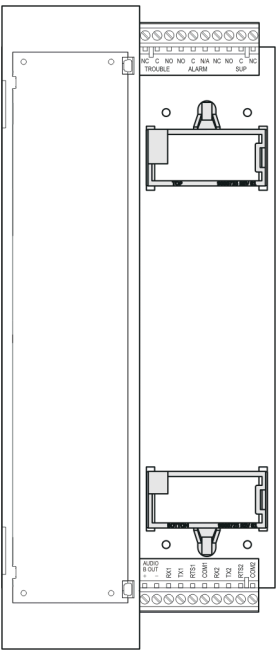

Installation

1. Insert the top and bottom display mounting brackets into the CPU module. See Figure 1.

2. Position the left door in its fully open position perpendicular to the CPU module. Align the hinge pins with the hinges on the left display mounting brackets then gently set the door module onto the brackets. See Figure 2.

3. Set the right door on the right display mounting brackets as described above.

4. Make sure the doors can open and shut without interference.
